Education

Madan Mohan Malaviya University of Technology, Gorakhpur

2024 - 2028

B.Tech in Electronics and Communication Engineering (Internet of Things)

7.8/10 CGPA

Children Senior Secondary School, Azamgarh

April 2024

Physics, Chemistry, Mathematics (PCM)

85.4%

Projects

Personal Portfolio Website [Live Link](#)

- Developed a responsive personal portfolio website to showcase projects, technical skills, achievements, and professional experience.
- Built the frontend using React.js and modern web technologies, ensuring a seamless and interactive user experience.
- Designed a clean and visually appealing interface with smooth navigation and mobile-friendly responsiveness.
- Integrated project showcases, resume access, and contact functionality to enhance professional visibility.
- Optimized website performance, accessibility, and cross-device compatibility for an improved browsing experience.

Weather App (Real-Time API-Based Web Application) [Live Link](#)

- Developed a responsive web application to display real-time weather data for any city using the OpenWeatherMap API.
- Integrated REST APIs using Fetch and async/await for efficient and seamless data retrieval.
- Implemented dynamic UI updates based on user input and API responses.
- Handled edge cases such as invalid city inputs and API failures to improve user experience.
- Deployed the application on Vercel, ensuring high availability and fast performance.

Todo App (Task Management Web Application) [Live Link](#)

- Built a task management web application with features to add, delete, and track daily tasks efficiently.
- Implemented DOM manipulation using JavaScript for real-time task updates.
- Designed a clean and user-friendly interface to enhance usability and productivity.
- Utilized browser local storage to persist tasks across sessions without backend support.
- Optimized performance for smooth user interactions and faster updates.

Skills

Languages: Python, Java, JavaScript, HTML, CSS

Frameworks/Libraries: React.js, Node.js, Express.js

Embedded Systems: Arduino, DHT Sensors, Servo Motors

Databases: MySQL

Developer Tools: VS Code, Arduino IDE, Tinkercad Circuits

Coursework: Fundamentals of Electronics, Electronic Devices and Circuits, IoT Systems and Arduino

Programming, Computer Networks, Raspberry Pi, Sensors and Actuators, Communication Systems, Engineering Physics, Python for IoT.

Achievements

- Winner of **SwiftWings 2024**, organized by MMMUT, Gorakhpur.
- Secured **AIR 06** in an Aeromodelling Competition organized by IIT Kharagpur.
- Qualified **JEE Mains, BITSAT, MHT-CET, VITEEE, and WBJEE**.

Position of Responsibility

- Executive Member at the Electronics and Communication Engineering Society (ECES).
- Organized multiple college events with participation exceeding 300 students.
- Represented school in Kabaddi at the inter-school competition level.
